During fiscal year 2009, the Secretary of Commerce and Trade also received various General Fund transfers from Central Appropriations for specific purposes as required by the Appropriation Act. We discuss each of these transfers in more detail below.
Governor’s Development Opportunity Fund

The Governor’s Development Opportunity Fund (the Opportunity Fund) provides funds to attract economic development prospects and secure the expansion of existing industry in the Commonwealth. The Opportunity Fund receives a General Fund transfer from Central Appropriations, which allow the Governor to make grants to qualifying companies. These grants are contingent on the company meeting certain criteria required under the Code of Virginia, such as the creation of a certain number of jobs.

Several entities are involved in the process of awarding grants from the Opportunity Fund including the Virginia Economic Development Partnership (VEDP), the Secretary, and the Governor. VEDP conducts the initial reviews of the proposals for grants from the Opportunity Fund and the grants are subject to approval by the Secretary and the Governor.

Once the Governor has approved a grant or loan, the company will request the funds and the Opportunity Fund will disburse the monies to the locality, who then pays the funds to the company. The company has three years within which to meet the conditions of the grant. If it does not meet the terms of the grant, the company must return the funds to the Opportunity Fund. The following table summarizes activity in the Opportunity Fund for the last three fiscal years.

Over the last several years, the Opportunity Fund has accumulated a cash balance; as of June 30, 2009, the Fund had a cash balance of $26.4 million. Of this balance amount, $15 million represents funds committed to various companies but not yet paid, and $5.1 million represents legal offers made to various companies where the company has not yet accepted or finalized the offer.

The cash balance is a result of the Commonwealth’s funding approach of the Opportunity Fund, which the Code of Virginia requires. The Code of Virginia requires that the Governor cannot make future commitments unless the fund has a balance sufficient to pay them. Therefore, the Governor and the General Assembly must transfer funding into the Opportunity Fund before the Governor can make offers and commitments. Additionally, there is often a time lag of several years from the time when the Commonwealth makes its first commitment to the time when there is a requirement to make a payment.
**Semiconductor Memory/Logic Wafer Manufacturing Performance Grant Funds**

The Secretary received General Funds for the Semiconductor Memory/Logic Wafer Manufacturing Performance Grant Funds. The grants seek to encourage the manufacturing of semiconductor wafers. The fund received and spent a total of $15,470,000 in accordance with the Appropriation Act in fiscal year 2009.

**Virginia Investment Partnership Grant Fund**

The Secretary received General Funds for payment to the Virginia Investment Partnership Grant Fund totaling $476,722. The Virginia Investment Partnership Grant Fund awards investment performance grants in accordance with Section 2.2-5101 of the Code of Virginia. During the fiscal year, the Secretary spent over $495,000 in investment performance grants.

**Governor’s Motion Picture Opportunity Fund**

The Governor can use these funds to attract film industry production activity to the Commonwealth. The Governor awarded $200,000 during the fiscal year. During the fiscal year, the fund spent a total of $170,000.
Secretary of Education

The Secretary acts on behalf of the Governor in the management and direction of educational agencies and performs program coordination, policy planning, and budget formulation activities. The Honorable Timothy M. Kaine  
Governor of Virginia  
State Capitol  
Richmond, Virginia  

The Honorable M. Kirkland Cox  
Chairman, Joint Legislative Audit  
and Review Commission  
General Assembly Building  
Richmond, Virginia  

We have audited the financial records and operations of the Governor’s Cabinet Secretaries for the year ended June 30, 2009. We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Audit Objectives

Our audit’s primary objectives were to evaluate the accuracy of recorded financial transactions in the Commonwealth Accounting and Reporting System, review the adequacy of the Secretaries’ internal controls, and test compliance with applicable laws and regulations.

Audit Scope and Methodology

The Secretaries’ management has responsibility for establishing and maintaining internal control and complying with applicable laws and regulations. Internal control is a process designed to provide reasonable, but not absolute, assurance regarding the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

We gained an understanding of the overall internal controls, both automated and manual, sufficient to plan the audit. We considered significance and risk in determining the nature and extent of our audit procedures. Our review encompassed controls over the following significant cycles, classes of transactions, and account balances.
Expenses
Appropriations
Revenues

We performed audit tests to determine whether the Secretaries’ controls were adequate, had been placed in operation, and were being followed. Our audit also included tests of compliance with provisions of applicable laws and regulations. Our audit procedures included inquiries of appropriate personnel, inspection of documents, records, and contracts, and observation of the Secretaries’ operations. We tested transactions and performed analytical procedures, including budgetary and trend analyses.

Conclusions

We found that the Secretaries properly stated, in all material respects, the amounts recorded and reported in the Commonwealth Accounting and Reporting System. The Secretaries record their financial transactions on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The financial information presented in this report came directly from the Commonwealth Accounting and Reporting System.

We noted no matters involving internal control and its operation that we consider necessary to be reported to management. The results of our tests of compliance with applicable laws and regulations disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Division of Selected Agency Support Services has taken adequate corrective action with respect to the audit finding reported in the prior year that is not repeated in this letter.
